Progressive. Focused.

Since the foundation of the Bush River herd was established in the 1950s, we have found that the greatest profits in the dairy business come from owning, milking and marketing **Registered Jersey Cattle**.

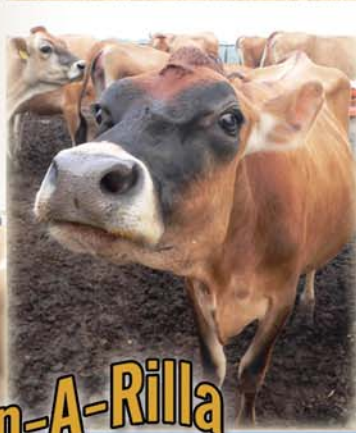

Jersey Purebreds are the best source of genetics for increased milk solids, longer productive life, higher fertility, mastitis resistance and calving ease that will lead the U.S. and global dairy industry.

Our mission statement at Bush River continues to be: To breed **Purebred Jersey Cattle** for cheese yield dollars, teat placement and udder depth.

If this is what you are looking for to increase your dairy profitability we invite your call or visit.
