

# A NAVARA MOMENT

We couldn't be happier with these four full ET sisters, sired by NAVARA and from the heart of our "Merrit" family. Six of their first nine dams are Excellent and many have put sons into A.I. Their dam Impulsive Moment at Wilsonview-ET, VG-88%, has five lactations over 20,000M actual and is the dam of MADDIX at Accelerated Genetics. "Moment's" full sister is the dam of MAGNUM, the #1 Active A.I. bull.

Thank you to Dick Smith, ABS Global, for making NAVARA semen available to us!
